**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Sapone on 8/16/10.

The application has been amended as follows:

In the claims:

Cancel claims 1-12.

In Claim 22, line 1, replace "and" with --or--.

***Reasons for Allowance***

2. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach the claimed invention, particularly to the arrangement of the die and mold and with the placement of the supply of the outlet for delivering of dehumidified air directly between the die and mold in a direction facing the protrusion, the air supply coming from the dehumidification means, the supply means being sized to deliver a flow nearly at ambient pressure. The closest prior art utilizing dehumidified air is spaced with the entire cooling tunnel rather than the claimed location between the die and mold.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892 form.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EMMANUEL S. LUK whose telephone number is (571)272-1134. The examiner can normally be reached on Monday-Fridays from 9 to 5.
